

MEMORANDUM OF UNDERSTANDING BETWEEN THE GOVERNMENT OF ORISSA AND M/S DEEPAK STEEL & POWER LIMITED FOR ESTABLISHMENT OF A STEEL PLANT AT TOPODIH NEAR BARBIL IN KEONJHAR DISTRICT OF ORISSA

This Memorandum of Understanding is made on this 4th day of May, 2005 between Government of Orissa on the one part and M/s. Deepak Steel & Power Limited on the other part.

1. M/s. Deepak Steel & Power Limited (DSPL) having its Registered Office at Barbil-758035 in the district of Keonjhar hereinafter referred to as DSPL which expression shall, unless repugnant to the context or meaning thereof, include its successors, executors, administrators, representatives and permitted assignees) is proposing to set up 0.25 MTPA of steel billets and 10 MW capacity of captive power plant at Topodih near Barbil in Keonjhar district in the State of Orissa with an estimated investment of about Rs.195.31 crore.
2. The Government of Orissa, desirous of utilising its natural resources and rapidly industrialising the State, so as to bring prosperity and well being to its people, have been making determined efforts to establish new industries in different locations in the State. In this context, the Government of Orissa have been seeking to identify suitable promoters to establish new integrated steel plants in view of the rich iron ore and coal deposits in the State.
3. (a) DSPL is desirous of setting up the following manufacturing facilities in the State of Orissa with proposed investment of Rs.195.31 crore.

Mr. Singh

Project	Capacity in MTPA	Project cost (Rs. in crore)	Time schedule for commissioning manufacturing facilities from the date of MOU
Coal based sponge iron	*0.284	64.78 (based on the feasibility report submitted by the company)	Within three years
MBF	0.004	9.79	
Steel billets	0.25	49.96	
Power	10 MW	34.49	
Others		36.29	
Total		195.31	

(* The company has got an existing sponge iron production capacity of 84000 tpa)

(b) Within three months of signing this MOU, DSPL shall prepare in consultation with representatives of IPICOL/IDCO detailed milestones in the form of annual break up of the physical & financial targets to be achieved and furnish the same to the State Government for monitoring.

4. This Memorandum of Understanding (MoU) reaffirms the commitment of DSPL to establish an integrated steel plant and assistance of the Government of Orissa for providing land, iron ore mines, recommending for coal blocks and other facilities.

The major areas of co-operation between the Government of Orissa and DSPL are listed below:

(A) Land:

(a) DSPL will require approximately 150 acres of land in Topodih, Barbil, in the district of Keonjhar for the purpose of setting up the steel plant & associated facilities.

(b) For rehabilitation of displaced families, Rehabilitation and Resettlement Package would be implemented as per prevailing guidelines and practices.

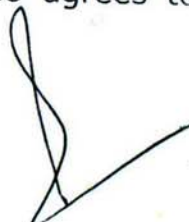

(c) The Government of Orissa agrees to hand over the land free from all encumbrances to DSPL through Orissa Industrial Infrastructure Development Corporation (IDCO) for construction of the plant and allied facilities.

DSPL agrees to pay IDCO/Revenue authorities the cost of the land etc.

(B) Raw Materials:

Coal : The State Government agrees to recommend to the Government of India for allotment of suitable coal blocks for captive coal mining for the project either directly or through a PSU. Further, the State Government will assist DSPL to get the allocation of coal linkage of suitable grade in the desired quantity to meet its requirement until it is ready for mining of its coal block.

Iron Ore: The State Government agrees to assist DSPL in making a firm arrangement with Orissa Mining Corporation (OMC) along with other private Iron ore lessees in the State to meet a substantial portion of the requirement of iron ore of suitable grade for initial period of steel making under mutually agreeable terms & conditions. Possibility shall also be explored to evolve long-term arrangement with OMC under mutually acceptable terms & conditions for development of new iron ore areas. Keeping in view substantial value addition within the State, the State Government also agrees to assign appropriate

priority in the matter of recommending their application for iron ore mines under the MMDR Act and the MC rules for mineral concession to meet their requirement subject to adequate progress in implementation of project as envisaged in Para-3 of this MoU and a portion of the requirement to be met through the OMC or any other existing lessees.

DSPL understands that by the time the complete plant and machinery for as in para 3 is set up and ready for production, but availability of iron ore area for the project is not tied up by then, the State Government would consider assigning priority to this project over other projects should come on stream (become ready for production of steel) later in the matter for allocation of iron ore area to meet their raw-material needs to the extent of about 25 years of requirement of the plant.

DSPL also understands that the State Government is in the process of formulating a set of guidelines indicating the criteria to be adopted in the matter of recommending available iron ore areas for steel projects and on assignment of inter-se priority among various steel projects in the State.

Any special consideration for assistance in the matter of sourcing raw-material as above will be subject to the position that suitable iron ore areas are available for grant and that M/s DSPL do not have an existing mining area or controlling interest or long term arrangement for supply of iron ore in any company/concern having mining area for the relevant mineral in the State. In case they do have such area/interest, their requirement shall be reassessed by the State Government after taking into consideration the quantity of mineral that can be met from these sources.

(C) Water :

The State Government will permit withdrawal of water from river Karo/other suitable sources for operation of the aforesaid project and the housing colony as per the prevailing rates under appropriate terms and approval of the Water Allocation Committee. The approx. requirement of water is as follows:

Water: 6000 Cum/hr

The State Government will also permit implementation of the water supply scheme to be prepared by DSPL and Water Resources Department.

(D) Power:

Total requirement of power will be 48 MW. The company will generate 10 MW and the balance will be sourced from NESCO.

Surplus power from the captive power plant, if any should first be offered to GRIDCO or any other corporation so designated by the State Govt. at a tariff determined by OERC.

(E) Environment:

- (i) The Government of Orissa agrees to assist DSPL in obtaining NOC through the State Pollution Control Board for the construction of the plant, the housing colony, pipeline, power project etc.
- (ii) Government of Orissa agrees to assist DSPL in obtaining all clearances from the Central Government.
- (iii) DSPL will arrange to conduct rapid Environment Impact Assessment (EIA) and detailed EIA study and prepare Environment Management Plan (EMP) for the project. The Government of Orissa agrees to

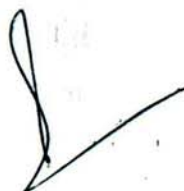

assist DSPL in this regard during the time when EIA is being conducted and EMP is being prepared.

(F) Incentives and concessions :

DSPL understands that the State Government would consider such incentives & concessions as are provided in the relevant Industrial Policy Resolution (IPR) of the State Government.

(G) General Clauses:

- (a) The Govt. of Orissa appreciate that DSPL is a responsible corporate house with a high involvement in employees' welfare and social development. The Government of Orissa therefore anticipates that DSPL will bring this philosophy to the steel plant project being set up in the district of Keonjhar to ensure the well being of this district in particular and the people of Orissa in general. In terms of employment, preference will be given to the people of Orissa as well as the local persons subject to need and their possessing the necessary qualifications. DSPL will make every effort to improve their skill levels, if necessary, through specialized training.
- (b) The Government of Orissa appreciates that DSPL will be entitled to induct suitable foreign and/or Indian Joint Venture partners, choose appropriate financial options, suppliers, credit options and technologies in the best interest of the project.
- (c) DSPL shall effect sale of all its products (including inter-state sales) in the State of Orissa and shall not effect any branch transfer of its products to out side the State. These stipulations are not however applicable to export of finished products outside the county.

- (d) The MOU shall remain valid for a period of two years from the date of signing. Further extension, if necessary, shall be made as per mutual agreement. However no such extension shall be considered unless DSPL has made substantial progress on implementation of the project in terms of construction, erection of plant and machinery and investment at site to the satisfaction of the State Government in these two years in implementing the project as envisaged in this MOU.
- (e) DSPL understand that the offers and special considerations of the State Government indicated in this MOU are for the Steel project envisaged in para-3 where the final product is Steel/ steel products and not for any intermediary product unless the same is for captive use in the Steel product.
- (f) DSPL shall be required to produce document towards financial closure for the project within one year of signing of MOU.
- (g) In the event of non-implementation of the project or part thereof the corresponding support/commitment of the State Government indicated in the MOU with regard to linkage of Iron Ore/Coal, incentives and concessions of the State Government in particular should be deemed to be withdrawn.
- (h) It shall be obligatory on the promoter to furnish all information required by the State Government relevant to planning, formulation, lay out, financing and implementation of the project as well as the financial and management status and performance of the promoter as and when so required by the State Government as expeditiously as possible.

- (i) The promoter agrees to facilitate participation of small and medium industries within the State for providing products and services required for the project during its construction and implementation phase as well as during operation and to promote the ancillary and downstream industries within the State. The State Government will nominate a nodal Agency/Officer to interact with the Company for this purpose.
- (j) The promoter while implementing the project undertake to comply with all statutory requirements/clearances in respect of laws, regulations and procedures governing establishment and operation of Industries.
- (k) The Company shall comply with all applicable laws and policies of the Government of India and the State of Orissa including more specifically those relating to environment, mining, rehabilitation and socio-economic development in the periphery of the project including Notification No.375 dated 15th January, 2004 of Government of Orissa.

For witness whereof the parties hereto have set their hands to this MOU on this 4th day of May, 2005.
